\*\*\* NOTE on Items 86-21-301 through 86-21-350 \*\*\*

On November 25, 1942 the firm of W.H. Nichols and Sons was awarded an Army-Navy E for excellence (E-Award). There was a formal award ceremony attended by government representatives, company members, employees, and a number individuals with whom the firm had business connections. Correspondence and other memorabilia pertinent to the ceremony were mounted in a five-and-dime scrap book using library paste. The scrap book cover boards were deteriorating and the pages were yellowing and brittle. The individual items were removed from the pages with remarkable success using a palette knife; only two items suffered any damage and this was minor. All items removed were individually cataloged and assigned the numbers 86-21-301 through 86-21-350. The scrap book covers and the yellowed pages were discarded.

\*\*\* Notes \*\*\*

Note 1: This concludes the listing of items removed from E-Award Scrap Book. A small number of items require restoration and these have been identified.

Note 2: Items number 86-21-351 to 86-21-380 were mostly multiple small photographs or clippings that were originally attached to black paper mounts and were stored in transparent sleeves in a four ring loose leaf binder. Where possible the individual items were mechanically removed from the mounts and separately cataloged. As the note before item 86-21-288 explains, items 86-21-288 to 86-21-299 were also removed from sleeves in the same four ring loose leaf binder.

\*\*\* End of Notes \*\*\*

86-21-351 to 86-21-356 \* These items are 5 photographs, each 83 mm by 108 mm (3.25 in. by 4.25 in.), a clipping from an unidentified publication, and a label with caption. A 77% reduction photocopy of the original single page layout was made. Each photograph, the clipping, and the label were mechanically removed from the black mounting paper and were separately stored. These in turn are stored together with the layout photocopy in a letter size file folder. All photographs are of the Boat House after the fire in 1969. The undated clipping gives a brief history of the Boat House.
